

Name _____ Per _____ Date _____

Inquiry # _____ Write-Up Graphic Organizer

What are you trying to find?	What information is important? <ul style="list-style-type: none">••••
-------------------------------------	---

Begin to make a plan. Use this as your workspace. Identify a strategy. Ideas to get started: Make a table or chart, write an equation in words or pictures, act it out, work backwards, find a pattern, solve a simpler problem, and/or "guess and check".

What is your solution?

- How did you check your answer?**
- Can you solve it a different way?
 - Does your answer make sense?

Write one thing you learned from your work on this problem.

Connect this problem to real life or other mathematical problems you have seen before.
